

## **ISS and Human Research Project Office Highlights**

### **November 20, 2009**

#### **ISS Research Program**

##### **PACE and CSLM-2 payloads shipped to KSC.**

The Pre-Advanced Colloids Experiment (PACE) and the Coarsening in Solids-Liquid Mixtures-2 (CSLM-2) payloads were shipped to Kennedy Space Center on Monday, November 16, 2009.

They arrived Tuesday morning (November 17, 2009). The experiments were unpacked and stored in an off line laboratory in the Space Station processing facility awaiting the bench review for the Multi-Purpose Logistics Module (MPLM) for the 19A mission, presently scheduled for March 18, 2010.
